SUMMARY – PUBLIC MEETING
Whiteheather Storm Sewer Improvements
Segments I and II

Introduction

A public meeting was held to discuss the proposed Whiteheather Storm Sewer Improvements for Segments I and II, generally bounded by Sims Bayou on the North, Anderson Road on the South, Bathurst Drive on the East, and the West boundary just East of Hiram Clark Road. The meeting was held on Thursday, July 12, 2007 from 6:00 pm to 8:00 pm at the Lifelong Learning Center, 13033 Landmark Street, Houston, Texas.

Public Notice

The public meeting notice was published in the Houston Chronicle, Houston Defender and El Dia. Notices were mailed to 631 government agencies, civic groups, media and landowners within the project area. Letters to elected officials were sent by the Texas Department of Transportation. Copies of the newspaper advertisements, public notice, elected official letter and mailing lists are included in the "Notification" section of this document.

Registration & Attendance

Meeting participants signed-in at the registration table located at the front entrance and were given a name tag, and handouts including a comment form. There were 65 individuals, including elected officials, in attendance at the meeting. Copies of sign-in sheets are included in the "Registration" section of this document.

Open-House Format

The open-house style meeting was held between 6:00 pm – 8:00 pm to allow residents to attend anytime during those hours. The exhibit area was arranged with a variety of presentation boards and maps displayed around the room. The format of the exhibit area was informal and interactive, with members of the project team available to discuss the exhibits and answer questions or address concerns. Several tables were set up in the exhibit area for participants to gather in small discussion groups while completing their comment forms. Written comments could be submitted at the meeting or mailed-in during the two-week comment period. Copies of the written comments are located in the "Written Comments" section of this document.

NOTIFICATION OF PUBLIC MEETING

Whiteheather Storm Sewer Improvements

Segments I and III

July 12, 2007

**NOTICE OF
PUBLIC MEETING
WHITEHEATHER STORM
SEWER IMPROVEMENTS**

The City of Houston and the Texas Department of Transportation (TxDOT) will conduct a public meeting regarding the proposed Whiteheather Storm Sewer Improvements. The meeting will be held on Thursday, July 12, 2007 from 6:00 p.m. to 8:00 p.m. at the Lifelong Learning Center at Brentwood Baptist Church, 13033 Landmark St., Houston, Texas, 77045.

The purpose of the meeting is to discuss the proposed Whiteheather Storm Sewer Improvements for Segments I and II, generally bounded by Sims Bayou on the North, Anderson Road on the South, Bathurst Drive on the East, and the West boundary just East of Hiram Clark Road. Discussion topics will include the construction plans to remove and replace pavement, sidewalks, water lines and sanitary lines, if required. The format of the meeting will be open-house style to allow residents to attend anytime between 6:00 pm and 8:00 pm. Information will be displayed, including preliminary engineering exhibits. Representatives from the City of Houston, TxDOT and the consultant team will be available to answer questions.

Additional right-of-way will not be required for the proposed action, and no displacements will be necessary.

Persons interested in attending the public meeting who have special communication or accommodation needs are encouraged to contact Community Awareness Services at 713-355-7655 at least two working days prior to the meeting. Since the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two working days prior to the public meeting. Every reasonable effort will be made to accommodate these needs.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the City of Houston Department of Public Works and Engineering, c/o Community Awareness Services, 4544 Post Oak Place, #224, Houston, Texas, 77027, at any time on or before Friday, July 27, 2007.

**AVISO DE JUNTA PÚBLICA
PARA EL MEJORAMIENTO DEL SISTEMA DEL ALCANTARILLADO DE
TORMENTAS "WHITEHEATHER"**

La Ciudad De Houston y El Departamento de Transportación de Texas (TxDOT) conducirá una junta pública para hablar sobre la propuesta del mejoramiento del sistema alcantarillado de tormentas de "Whiteheather." La junta se llevará a cabo el Jueves 12, de Julio, 2007 de 6:00 pm. a 8:00 pm. en el Lifelong Learning Center de Brentwood Baptist Church, 13033 Landmark St., Houston, Texas, 77045.

El motivo de esta junta es para discutir la propuesta sobre el mejoramiento del sistema alcantarillado de tormentas de los segmentos I y II, generalmente unidos por Sims Bayou en el norte, Anderson Road en el sur, Bathurst Drive en el este, y la frontera oeste al este de Hiram Clark Road. Los temas de discusión incluirán los planos de construcción para remover y reemplazar el pavimento, aceras, líneas de aguas y líneas sanitarias, si son necesarias. La junta será estilo "Open-House" para permitir que los residentes atiendan a cualquier hora entre 6:00 p.m. y 8:00 p.m. La información estará en exhibidores, incluyendo una exhibición preeliminar de ingeniería. Representantes de la Ciudad de Houston, TxDOT y un equipo de consultantes estarán disponibles para contestar sus preguntas.

Derechos de pasos no serán requeridos para la propuesta, y los desplazamientos no serán necesarios.

Personas interesadas en participar en la junta pública y quienes necesiten comunicación especial o alojamiento, se les anima a que contacten a Community Awareness Services al 713.355.7655 por lo menos 2 días hábiles antes de la junta. Además, la junta pública será conducida en inglés, cualquier pedido para tener un intérprete u otra necesidad especial de comunicación también tienen que ser hechas por lo menos 2 días hábiles antes. Se harán todos los esfuerzos razonables para acomodar tales necesidades.

Todos los ciudadanos interesados están invitados a participar en esta junta pública. Comentarios por escrito relacionados al proyecto propuesto serán presentadas en la junta y sometidas al Departamento de Trabajo Públicos e Ingeniería de la Ciudad de Houston, c/o Community Awareness Services, 4544 Post Oak Place, #224, Houston, Texas, 77027, a cualquier hora o antes del Jueves, 27 de Julio, 2007.

Dear «Salutation» «Last_Name»:

Attached is a notice for the upcoming public meeting for the White Heather Storm Sewer Improvements project. The public meeting is being held to present the Categorical Exclusion to seek comments from local officials and citizens. You, or your representative, are cordially invited to attend this meeting. The meeting will be held as follows:

Thursday, July 12, 2007
Lifelong Learning Center at Brentwood Baptist Church
13033 Landmark Street
Houston, Texas
6:00 p.m. to 8:00 p.m.

We are available to meet with you prior to the public meeting to answer any questions that you may have or to review the proposed project. If you have any questions in the interim, please contact Mr. Pat Henry, P.E., at (713) 802-5241.

Sincerely,

Gary K. Trietsch, P.E.
District Engineer
Houston District

Attachment

cc: Mr. Pat Henry, P.E.

Notified Elected Officials:

The Honorable Alma A. Allen
State Representative

The Honorable Michael Berry
Council Member, At-Large Position

The Honorable Peter Brown
Council Member, At-Large Position

The Honorable John Cornyn
United States Senator

The Honorable Ada Edwards
Council Member, District D

The Honorable Rodney Ellis
State Senator

The Honorable Ed Emmett
Harris County Judge

The Honorable Al Green
United States Representative

The Honorable Ronald Green
Council Member, At-Large Position

The Honorable Kay Bailey Hutchinson
United States Senator

The Honorable El Franco Lee
Commissioner, Harris County

The Honorable Sue Lovell
Council Member, At-Large Position

The Honorable Bill White
Mayor

Whiteheather Storm Sewer Improvements Public Meeting Lifelong Learning Center, Brentwood Baptist Church • July 12, 2007

The Public Meeting was held at the Lifelong Learning Center at Brentwood Baptist Church. As participants entered they were given a handout packet.

Exhibits of the project were displayed for public viewing

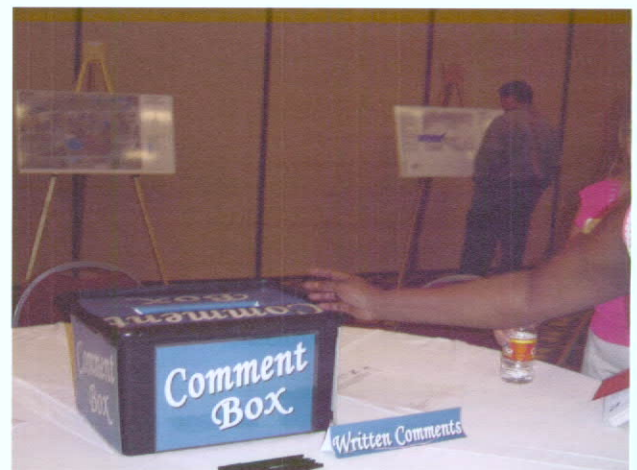

Project representatives were stationed throughout the area to discuss the project and answer questions.

Participants were able to leave written comments in the comment box at the meeting or mail them within two weeks.

PUBLIC MEETING
WHITEHEATHER STORM SEWER IMPROVEMENTS
LIFELONG LEARNING CENTER
13033 LANDMARK STREET, HOUSTON, TEXAS
THURSDAY, JULY 12, 2007
6:00 PM - 8:00 PM

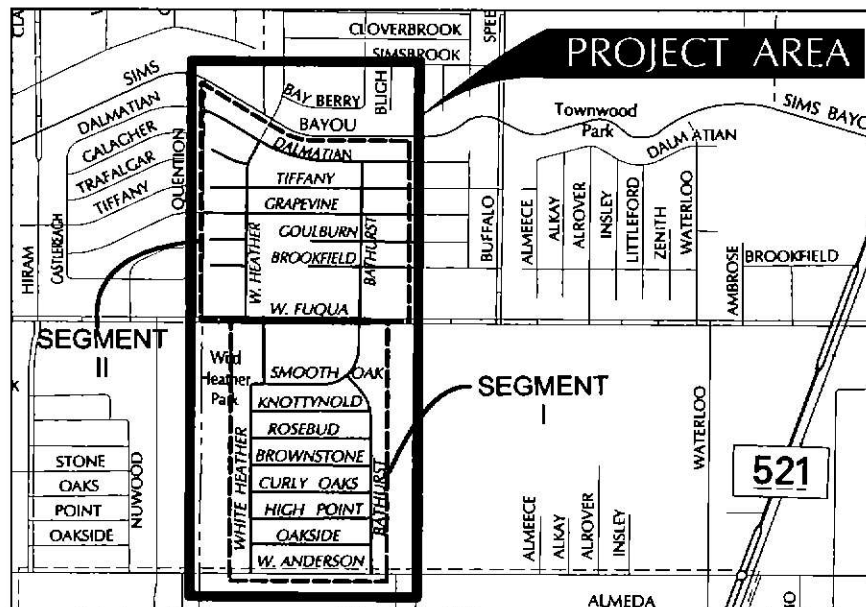

Welcome to the public meeting for the Whiteheather Storm Sewer Improvements.

The purpose of the meeting is to discuss the proposed Whiteheather Storm Sewer Improvements for Segments I and II, generally bounded by Sims Bayou on the North, Anderson Road on the South, Bathurst Drive on the East, and the West boundary just East of Hiram Clark Road. Discussion topics will include the construction plans to remove and replace pavement, sidewalks, water lines and sanitary lines, if required. The format of the meeting will be open-house style to allow residents to attend anytime between 6:00 pm and 8:00 pm. Information will be displayed, including preliminary engineering exhibits. Representatives from the City of Houston, TxDOT and the consultant team will be available to answer questions.

Additional right-of-way will not be required for the proposed action, and no displacements will be necessary.

All interested citizens are invited to attend this public meeting. Written comments relative to the proposed project may be presented at the meeting or submitted to the City of Houston Department of Public Works and Engineering, c/o Community Awareness Services, 4544 Post Oak Place, #224, Houston, Texas, 77027, at any time on or before Friday, July 27, 2007.

For additional information, call the City of Houston Department of Public Works and Engineering, Supervising Engineer at (713) 837-7687.

WHITEHEATHER STORM SEWER IMPROVEMENTS

SEGMENT I

Statement Of Problem

The existing project area infrastructure which is predominantly a residential area was built in ~ 1960-1963, has experienced severe street flooding and structural flooding during minor rainstorm events. Street Flooding and Structural Flooding has occurred even when HCFC Ditch C100-00-00 (Sims Bayou) and HCFC D C144-00-00 were flowing at below normal water surface levels. It should be noted that streets outside the project area that are situated within the 100 year flood plain zone were not experiencing any street flooding while severe street flooding within this project area was occurring. SES Horizon Consulting Engineers, Inc. (SES) have executed a storm water evaluation within the project area and have determined that the existing storm sewer systems that service the project area, are generally undersized. The existing infrastructure systems are also adversely impacted by an existing fault (Anderson Fault) line as well as ground subsidence over the years.

Project Base Solution

The project area will be enhanced by implementing storm sewer drainage improvements that will accommodate a City of Houston 2-year rainfall frequency event and provide for storm sewer improvements within the project area. The improvements include but are not limited to full width paving removal and replacement, driveway removal and replacement, existing storm sewer system removal and/or abandonment, new storm sewers, new inlets, new manholes and all other appurtenances. The existing water and sanitary sewer systems will require utility adjustments for the proposed storm sewer system installation. Other items include new sodding, sidewalk adjustments, new illumination conduit, new dry rip rap placement, irrigation system preservation, mail box preservation, traffic control measures, storm water pollution prevention plan measures and tree protection and preservation measures. The existing storm sewer system will be utilized and kept in place as much as possible in order to tie-in to the proposed storm sewer system and provide additional storm water storage capacity.

Estimated Construction Cost

The estimated construction cost for this project is \$8,699,803.50.

Estimated Construction Duration

18 Months

Estimated Construction Initiation

September 2008

Very detailed Plan to Effect our Area.

This has been needed for a very long time.

It is presently better today, than 20-30 years ago.

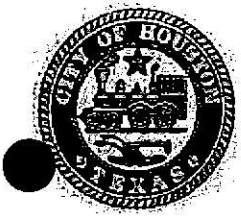

*After thirty two years, I feel you have
the solution.*

*many thanks to ALL.
I loved my subdivisions.*

We are very happy to see this project! we really hope that everything is Done, because every time it rains we get dirty water from the sewer lines to the house (toilets ~~and~~, water faucets and sometimes even the Shower).

We hope to see all the improvements soon! because it is a big headache everytime that there is a small rain our Street gets Flodded and we can not go out or get in to our houses.

I Welcome this project because my street is being torn up by the METRO #11 bus. We live @ 3731 Tiffany Drive. METRO re-routed #11 beginning in March 2007. In all of the 31 years we have lived on Tiffany Drive, we never had pot holes. Now, in just 3 months, we have 2 pot holes and many cracks in the street. So in addition to solving our "much needed drainage problems," we can get our street re-concreted, too.

Will there be letters mailed out in advance before Construction, on where the Entrance and Exits will be, and Bus Re-Routes, Will this project affect Sewer and Water Usage, and if so in what manner, As of today when it rains the City Sewer line stops up which causes the residents line to stop up, doesn't seem possible, but I have experienced the problem for the past 10 yrs, off and on, and I have lived here 30 yrs.

I attended the public meeting on July 12th.

Upon reviewing the proposed plans for the Whiteheather Storm Sewer Improvements for Segment I, I would like to address the problem of water and mud that ponds at the corner of Bathurst and Curly Oaks.

I did not see a plan to resolve the problem of this water and mud that flows from the field to the east of Bathurst to the storm sewer on the corner of Bathurst and Curly Oaks.

Will this problem be addressed during this project? I can be reached at (832) 423 3288.

I have been living in the Wild Heath
Subdivision for 20 years.
The street on ~~3923~~ Smooth
Oak flows everyting a
heavy or has a small rain
comes.
We really need the streets
fixed, if the flooding occurs
in the morning, you can get
out of the Subdiv with
mid morning. Therefore you
are late for work

This project is long overdue. I have lived in this area since 1980 (27 years) and the flooding has been of primary concern. After the proposed construction, will the flooding cease to be a problem? Will there be adequate pipes, ditches, retention ponds, etc to totally eliminate any ~~water~~ rising of water?

I am pleased that this project is on the drawing board but I hope that this is ^{not} ~~only~~ just wishful thinking. We have been promised throughout the years by City Council that the flooding would be resolved. My taxes have been contributed to all other city projects so now is time for my area. Even in recent years, funds were allocated & then taken away to be utilized for the area of former Pres. George Bush. Substandard work will not be tolerated.

IN THE CONSTRUCTION PROCESS, WILL HOME OWNERS
BE ADVISED AS TO TRAFFIC IN AND OUT OF
SUBDIVISION? WILL APPROPRIATE SIGNAGE BE
ERECTED? WILL YOU WORK ON ONE STREET
AT A TIME OR ALL? WHEN PROJECT BEGINS
HOW LONG WILL IT TAKE CONSIDERING ^{it} ^{Weather} ^{permits} ~~weather~~?
SOME STREETS DO NOT HAVE SIDE WALKS,
WILL YOU PUT SIDE WALKS IN WHERE THERE
HAVE BEEN NONE? ~~SIDE WALKS~~. WE WOULD LIKE
TO BE UP DATED ON MONTH TO MONTH PROGRESS
AND ANY CHANGES THAT MAY TAKE PLACE.
WE WOULD LIKE TO MEET WITH THE DAY TO DAY
PERSON WHO WILL SUPERVISE WORKERS EACH DAY.
LASTLY WE ^(Whiteheather Civic Club) WOULD LIKE TO SCHEDULE A MEETING
WITH MR. HARISH JATOO AND MR. SALAZAR
IN AUGUST, THE FOURTH TUES AT THE HIRAM CLARK
PODICE STORE FRONT AT 7:PM is meeting time.

I would like to say that I have lived @ 3926 Smooth Oak Ln. since 1971. Since 1971 - to the present time - I've & we've had to deal w/ flooding. I worked @ M.I. Anderson Hospital for 32 yrs. And each time it rained - I was not able to go to work until the water subsided. Or if I was already @ work - I had to park my car on FUGUA @ the store - and walk-in - fighting snakes & all other yornits & debris. Thank you for your plans for the new system - and am delighted the my tax money is being put to good use.

**RESPONSE TO ATTENDEES WRITTEN COMMENTS FOR
PUBLIC MEETING FOR
WHITEHEATHER STORM SEWER IMPROVEMENTS
LIFELONG LEARNING CENTER
13033 LANDMARK STREET, HOUSTON, TEXAS
THURSDAY, JULY 12, 2007
6:00 PM – 8:00 PM**

September 25, 2007

Reference Project:

City Of Houston

Whiteheather Storm Sewer Improvements

WBS No. M-000262-0001-4, File No. SM5056

Responses To Written Questions By Attendees:

Attendee: Allen, Roger

Comment: Very detailed plan to effect our area. This has been needed for a very long time. It is presently better today than 20 – 30 years ago. After thirty two years, I feel you have the solution.

Many thanks to all.

I loved my subdivision.

Response: Comment noted.

Attendee: Arriola, Juan J.

Comment: We are very happy to see this project! We really hope that everything is done, because every time it rains we get dirty water from the sewer lines to the house (toilets, water faucets and sometimes even the shower). We hope to see all the improvements soon! Because it is a big headache every time that there is a small rain our street gets flooded and we can not go out or get into our houses.

Response: Comment noted.

Attendee: Deauvearo, Edna

Comment: I welcome this project because my street is being torn up by the METRO #11 bus. We live at 3731 Tiffany Drive. METRO re-routed #11 beginning in March 2007. In all of the 31 years we have lived on Tiffany Drive, we never had pot holes. Now, in just 3 months, we have 2 pot holes and many cracks in the street. So in addition to solving our "much needed drainage problems", we can get our street re-concreted, too.

Response: Comment noted.

Attendee: **Foretich, Rita T.**

Comment: Project looks good. This area needs the project.

Response: Comment noted.

Attendee: **Fuertes Sr., Rolando G.**

Comment: I would appreciate it if you have or will have any project(s). That would affect me at 5107 Heathercrest Drive and let me know so I can pass it along to the Heathercrest & South Post Oak Civic Club. Thanks for your cooperation.

Response: The City of Houston, Department of Public Works and Engineering, currently do not have planned improvements within this vicinity.

Attendee: **Givens, Robin**

Comment: If possible the engineers could please meet with the residents of Wildheather Subdivision, to explain when, how construction will begin and what we should expect.

Thank You.

Response: Prior to beginning of the construction, the City of Houston Councilmember representing the citizens in the affected area and/or Department of Public Works and Engineering may host town-hall meeting(s), during which representatives from Department of Public Works and Engineering will explain the construction schedule, what to expect and address any other concerns. Residents may contact their respective City of Houston Councilmember or Department of Public Works and Engineering for further information.

Attendee: **Jones, Maple**

Comment: Will there be letters mailed out in advance before construction, on where the entrance and exits will be, and bus re-routes? Will this project affect sewer and water usage, and if so in what manor , as of today when it rains the city sewer line stops up which causes the residents line to stop up, doesn't seem possible , but I have experienced the problem for the past 10 years , off and on, and I have lived here 30 years.

Response: Prior to beginning of the construction, the City of Houston Councilmember representing the citizens in the affected area and/or Department of Public Works and Engineering may host town-hall meeting(s), during which representatives from Department of Public Works and Engineering will explain the construction schedule, what to expect and address any other concerns. Advanced notice will be distributed to inform residents of possible disruptions if any to water and sewer services during construction. The existing water line and sanitary sewer systems within the City of Houston street right of way will be replaced or rehabilitated in Segment I. The replacement construction procedures will have

minimal impact on residential use of these utilities and will be sequenced to maintain utility services for the duration of the construction of the project. Traffic control devices will be in place to direct egress and ingress. Please contact with City of Houston Department of Public Works and Engineering for further information.

Attendee: Jordan, Suesan

Comment: I attended the public meeting on July 12th, upon reviewing the proposed plans for the Whiteheather Storm Sewer improvements for Segments I, I would like to address the problem of water and mud that ponds at the corner of Bathurst and Curly Oaks. I did not see a plan to resolve the problem of this water and mud that flows from the field to the east of Bathurst to the storm sewer on the corner of Bathurst and Curly Oaks. Will this problem be addressed during this project? I can be reached at (832) 4233288.

Response: The City of Houston, Department of Public Works and Engineering, Stormwater Maintenance Division may be requested to investigate and assess the existing drainage sheet flow conditions coming from the East side to the intersection of Bathurst and Curly Oaks. This Whiteheather Storm Sewer Improvement project has not been programmed to address the area to the East of the Bathurst and Curly Oaks intersection.

Attendee: Miles, Louis

Comment: Thanks for all the efforts to relieve our community of street flooding. I live on Bathurst (Segment I) and have suffered much water damage to automobiles and other property.

Let's stay on schedule!!!

Response: Comment noted.

Attendee: Nash, John

Comment: This is great! Why so long?

Now let's do something about our schools in this area.

This is not my area but all improvement is for the better in this District - D

Response: Construction funding is now available for this project by utilizing both local and federal funding.

Attendee: Pendergraff, Christi

Comment: I have been living in the Wildheather Subdivision for 20 years. The street on Smooth Oak floods everytime a heavy or small rain comes. We really need the streets fixed. If the flooding occurs in the morning, you can't get out of the subdivision. Therefore, you are late for work.

Response: Comment noted.

Attendee: **Petry, Sylvia**

Comment: 1. How/when will the home owners be notified of the project start date?
2. Will the homeowners be able to get to their homes as construction is going on – on their street?
3. How long will construction last? Months/Years?
4. Will you replace the whole driveway or a portion?
5. Will the construction affect sewer and water usage?
6. Will you (the city) send a representative to meet with the Civic Clubs?

Response: Prior to beginning of the construction, the City of Houston Councilmember representing the citizens in the affected area and/or Department of Public Works and Engineering may host town-hall meeting(s) to inform residents and business of the project schedule and address any concerns the residents may have. All residents will have access to and from their respective residences – there may be short term instances when residents can not utilize their existing driveways and sidewalks due to the removal and replacement of these facilities. The construction for Segment I is estimated to be initiated in September 2008 and have a estimated construction duration of 18 months. The construction for Segment II is estimated to be initiated in March 2009. Existing driveways may be removed and replaced or otherwise adjusted when necessary up to the existing street right of way limits. The existing water line and sanitary sewer systems within the City of Houston street right of way will be replaced in Segment I. The replacement construction procedures will have minimal impact on residential use of these utilities and will be sequenced to maintain utility services for the duration of the construction of the project. The City council member's office will be the focal point for all civic organization correspondence and coordination efforts for the project.

Attendee: **Washington, Patricia**

Comment: This project is long overdue. I have lived in this area since 1980 (27 years) and the flooding has been of primary concern. After the proposed construction, will the flooding cease to be a problem? Will there be adequate pipes, ditches, retention ponds, etc to totally eliminate any rising of water?

I am pleased that this project is on the drawing board but I hope that this is not just wishful thinking. We have been promised throughout the years by city council that the flooding will be resolved. My taxes have contributed to all other city projects so now it's time for my area. Even in recent years, funds were allocated and then taken away to be utilized for the area of former President George Bush. Substandard work will not be tolerated.

Response: The City of Houston, Department of Public Works and Engineering "Infrastructure Design Manual" is the guide for designing this and all other City of

Houston Capital Improvement Projects. The intent of this project is to improve drainage systems within the project area. The existing storm water outfall locations and elevations are also design constraints. The proposed storm sewer design can not accommodate storm sewer frequency events that exceed what the storm sewer system was designed for – this is consistent with all other City of Houston, Department of Public Works and Engineering storm water projects.

Attendee: Washington, Ray

Comment: In the construction process, will homeowners be advised as to traffic in and out of subdivision? Will appropriate signage be erected? Will you work on one street at a time or all? When project begins, how long will it take considering if weather permits? Some streets do not have sidewalks, will you put sidewalks in where there have been none? We would like to be updated on month to month progress and any changes that may take place. We would like to meet with the day to day person who will supervise workers each day. Lastly we (Wildheather Civic Club) would like to schedule a meeting with Mr. Harish Jajoo and Mr. Salazar in August, the fourth Tuesday at the Hiram Clark Police Store Front at 7:00 p.m. is meeting time.

Response: Prior to beginning of the construction, the City of Houston Councilmember representing the citizens in the affected area and/or Department of Public Works and Engineering may host town-hall meeting(s), during which representatives from Department of Public Works and Engineering will explain the construction schedule, what to expect and address any other concerns. Traffic control devices will be in place to direct egress and ingress. Streets will be constructed so that there will be minimal impacts on residents' ingress/egress pattern. The construction for Segment I is estimated to be initiated in September 2008 and have an estimated construction duration of 18 months. The construction for Segment II is estimated to be initiated in March 2009. Sidewalks will be constructed on both sides of all streets within the project area. The construction manager and construction inspector for this project will be determined at later date and the residents will be able to report concerns/complaints to the construction manger or inspector.

Attendee: Williams, Margaret

Comment: I would like to say that I have lived @ 3926 Smooth Oak Lane, since 1971. Since 1971 - to the present time – I've and we've had to deal with flooding. I worked at M.D. Anderson Hospital for 32 years and each time it rained I was not able to go to work until the water subsided.
